HOW ARE SUBSIDIES PAID?

The other day, Mr. S. B. Littell, of Chicago, wrote the following note to the Inter Ocean:

CHICAGO, June 5.—*To the Editor*—In an article that I have, and said to have been copied from Belford's Magazine of 1888 or 1889, by H. K. Turner, the writer says the British government made a contract with the Peninsular and Oriental company for fourteen years to pay that company a subsidy equal to $2,500,000 annually. What is meant by 'subsidy" as used above? David A. Wells is quoted in the North American Review of March last, page 309, as saying: England subsidizes ships in the same sense as the citizen subsidizes the butcher, the baker, and the grocer; that is, she avails herself of the services of a very small portion of her ships and shipowners for carrying her mails, and pays them for it in exactly the same way as the United States pays railroads, steamboats and stage-owners for performing similar service, and there is no act of parliament to show that it ever gave a bounty or subsidy for such a purpose. Is this true, and can you cite an act of parliament to prove it true? Please answer. S. B. LITTELL.

It has been maintained by the free trade papers that Great Britain, in fact neither France nor Germany, pay direct subsidies to their respective steamship lines for carrying the mail and encouraging commerce. The readers of the Gazette will remember that several weeks ago this paper printed the amount of subsidies paid by the three countries named to the ocean steamers. The amount, for instance, the British Steamship Companies received from the British government, was many times greater than the amount United States steamships received, and in fact, foreign steamers received more money from the United States for carrying American mails than our own companies received.

Here is a point the Inter Ocean makes: "A subsidy as used above" signifies a grant of $2,500,000, nominally for carrying the mails to and between certain ports, but really to encourage British shipping. This interpretation is sustained by the reply of Mr. Fawcett when Postmaster General of the United Kingdom, to an economic member of parliament who objected that the appropriation made for a certain steamship company was greatly in excess of the service rendered, "The government," said the postmaster general, "has in view the growth and development of the marine service, as well as the mere carriage of mails." And at a later date, during 1889 in fact, there was great turmoil in parliament over the apparent disposition of government to accept the lower bid of a German steamship company over the higher one of an English company. And it ended, we believe, in the rejection of the German bid.

Great Britain, France and Germany, protect their carrying trade on the high seas just as the United States does its manufacturing industries, only with this difference, that the other governments pay into the treasuries of the steamship companies, sums sufficient to enable them to compete with American ships. Let us illustrate: Neither England, nor Germany, nor France, will allow any other steamship lines to compete with them in carrying either mails or commerce. Each one will pay more for the privilege of carrying the mail in its own vessels, than it will pay to the ships of any other country. This is a subsidy, a fostering of English, French, and German merchant marine. The United States acts upon a different plan—it gives the British steamers the privilege of carrying American mail because they being subsidised, can do it cheaper than our own steamers can. In other words England, France, and Germany protect their steamship lines; the United States does not.

After a long search and a hard struggle, Miss Gwendoline Caldwell, the New York millionaire heiress, has found a husband. It is said she will marry a French baron, who possesses nothing but a title. She was engaged last fall to Prince Murat—a loafer, spendthrift, and gambler—to whom Miss Caldwell offered ten thousand a year for the privilege of living with him as his wife and securing a title. The prince wanted fifty thousand a year for this accommodation to Miss Caldwell, which she refused. She has now made other arrangements by which she secures a husband and a title for twenty thousand a year. He will be a pretty expensive husband, but as Miss Caldwell has nearly two millions at her disposal and would rather have an empty title than home or honor, she is able to purchase it at almost any price.

There has been an increase in the insane of the state to the number of 153 during the past month. The population of all the hospitals and asylums in the state for May is as follows: In the State hospital at Mendota, are 518; at the Northern hospital, 594; Milwaukee hospital, 263; Brown county asylum, 95; Columbia, 55; Dane county, 103; Dodge county, 89; Fond du Lac, 96; Grant county, 102; Green county, 68; Iowa county, 101; Jefferson county, 95; La-Crosse county, 105, Manitowoc county, 99; Milwaukee county, 99; Outagamie county, 62; Racine county, 71; Rock county, 76; Sauk county, 52; Sheboygan county, 86; Vernon county, 101; Walworth county, 80; Winnebago county, 73. This makes 3,084 insane persons in the state—1,687 males, and 1,397 females.

The Milwaukee Journal is issued in an enlarged form, now being printed with eight pages, with new type, and with an improved headline. This evidence of prosperity in the Journal office will be received with gladness by the newspaper fraternity of the state. The Journal is an enterprising and lively newspaper, and is ably edited. Its politics may be out of joint from a republican point of view, but it nevertheless deserves commendation for its splendid struggle for success.

A dispatch from Madison says that Governor Hoard will stand by his guns. Of course he will. No patriotic American will back down in the face of the enemy, and Governor Hoard is a patriotic American.

If the food killer could go through the state and make way with some of the newspaper correspondents who write up politics, he would do both parties good service.

SLEPT TILL HE DIED.

Peculiar Case of a Drayman at Grand Rapids, Mich.

GRAND RAPIDS, Mich., June 11.—John Van Dorn, whose death was caused by too much sleep, was buried to-day. He was an expressman, and twelve days ago was taken from his dray by a policeman, who thought he was drunk, and was sent home in the patrol wagon. He was not drunk, but sleeping, and never awoke. The sleep was apparently perfectly natural, but the efforts to awaken him were unavailing, and Sunday he died, although ever thing possible was done to keep him alive. Some time ago he slept eight weeks without a break. Something was the matter with his brain.

SAN FRANCISCO, Cal., June 11.—Sarah Althea Terry received another blow from the Supreme court to-day when it instructed the lower court to deny the motion whereby she obtained $6,000 allowance for alimony and counsel fees. The court held that as this decision was made on the strength of a marriage contract afterward declared forged it can not stand.

When it comes to the point of choosing a stylish hat or a fine fitting suit there is no place in the city like Ziegler's.

STRUCK BY A CYCLONE.

An Engineer and Fireman Killed in a Railway Wreck Near Hannibal, Missouri, Last Evening.

AN ILLINOIS VILLAGE SWEPT BY A CYCLONE.

Channahon, in Will County, Said to Have Been Destroyed—Storms in Other States.

JOLIET, Ill., June 11.—Channahon, a small town in Will county, southwest of this city, was almost totally destroyed by a cyclone last night. No definite information as to the disaster has yet been received, as the place is a mere post hamlet without rail or telegraphic facilities. It is a town of about thirteen hundred inhabitants, and as none of them have yet reached this city it is feared that many lives have been lost. The disaster which is supposed to have been caused by a cloudburst and cyclone has caused great excitement in this city and relief parties have started for the little village. The cyclone was seen and heard before it struck the town; but the most that the frightened inhabitants could do was to flee for their lives as the time was too short for any attempt to save property. A telephone message says the roaring of the cyclone could be heard four miles away, but the people were too frightened to extend aid to the sufferers. A large strip of country was devastated. Reports indicate that the list of killed and wounded will be large. Surgeons have been sent from here to relieve their sufferings. From the meager information at hand it seems that most of the damage was done by the storm in the country around Channahon, and that the majority of casualties occurred outside the town.

STRUCK BY A CYCLONE.

A New Three-Story Bank Building at Piedmont, Ala., Wrecked.

ANNISTON, Ala., June 11.—A windstorm struck Piedmont, a small town twenty-five miles north of this city, yesterday afternoon and levelled the three-story brick and stone building of the Bank of Piedmont, which was nearly completed. Mr. Sullivan, a white man, and a negro, whose name is unknown, were working on the roof and were thrown to the ground and fatally injured. After striking the bank building the cyclone rose into the air, not doing any more damage in the town. The building cost about $15,000. News from the surrounding country report the heaviest rainfall of the season and great damage to growing crops will result.

TWO LIVES LOST.

An Engineer and Fireman Killed in a Wreck Near Hannibal, Mo.

HANNIBAL, Mo., June 11.—A construction train collided with a freight train the St. Louis, Keokuk & Northwestern on a curve about twelve miles south of here and about twelve cars were wrecked. Fireman Arthur A. Taylor and Berry Nelson were scalded to death. Engineer Barker was injured about the hips. Engineer Fitzpatrick jumped and escaped with slight injuries. Conductor Omar Lemons was slightly injured internally, and Head Brakeman Tucker was seriously hurt. An error of Train Dispatcher Davidson, said to be his first in twelve years, caused the wreck. He at once resigned.

THE WABASH WRECK.

Survivors of the Warrenton Disaster Reach Kansas City.

KANSAS CITY, Mo., June 11.—The remnant of the wrecked Wabash horse train did not pull up to the unloading place near the race course, across the river, until 1 o'clock this morning. In a caboose next to the last car in the train were the eight wounded colored men and boys, the most of them belonging to Chinn & Morgan's stable. Scarcely one of them escaped with less than a broken leg. They were all removed to the Wabash hospital.

Thought to Have Drowned.

NEW YORK, June 11.—John Schmidt, John Kinn and Matthias J. Pollak, all of New York, started on a fishing trip on Canarisi Bay last Saturday and have not since been seen. It is thought that all three were drowned and efforts are being made to recover their bodies.

CAN'T COLLECT THE BOUNTIES.

Claims of Iowa Veterans Barred by Statute of Limitations.

MARSHALLTOWN, Iowa, June 11.—It was ascertained here to-day that the back bounty claims alleged to be due many volunteers from this county can not be collected, being barred by the statute of limitations after five years from the time the said bounty was authorized by the county board, as decided by the State Supreme court in 1873 in a similar case. This being true, many veterans will lose the bounty to which they were once entitled and the county is saved an enormous expense.

KING NOT THE ROBBER.

St. Louis Officers Think Their Prisoner An Able Bodied Liar.

ST. LOUIS, Mo., June 11.—The paying teller at the First National bank of Denver, the only man who saw the robber plainly at the time, visited the jail at Clayton to-day, but failed to identify Mansfield King as the man who robbed President Moffat of $21,000. It is thought the requisition papers will be returned unused. The opinion is freely expressed here that King is a consummate liar and a commission will probably be appointed to investigate his sanity.

FEAR CAUSED HIS DEATH.

A Cincinnati Young Man Thought He Had Hydrophobia.

CINCINNATI, June 11.—Harry White, a young telephone operator, was bitten by a dog last April. He read about the symptoms of hydrophobia, and early this morning he told the family they must strap him to the bed. Half an hour later he went into convulsions, and died. The doctors say death was caused by mania on the subject, and that there were no indications whatever of rabies.

Scandinavian Baptists Meet.

ANOTHER EXPRESS ROBBERY.

A Train on the Texas Pacific Held Up by Masked Men.

TEXARKANA, Ark., June 11.—The belated train on the Texas & Pacific which left here at 11 o'clock last night was robbed at what is known as Four-Mile Junction. A switch was thrown and the train derailed. An unknown man who was stealing a ride was instantly killed. Express Messenger Nesbitt resisted the robbers as they entered the express car and was fired upon. The robbers then went through the express safe and made their escape.

It is claimed that they secured less than $200 in the express-car. After they had gone through this car the robbers marched the engineer and fireman and messenger about 100 yards from the railroad track, seated them on a log, and told them to stay there with their eyes shut for one hour.

When the bandits had gone a distance of about fifty yards they turned and fired a volley at the men on the log. The messenger was shot through the left hand and another bullet pierced his left ear. The robbers then disappeared. It required but a short time to notify officers here, who at once went in pursuit of the bandits. One man has been arrested and is now in custody, but has not yet been fully identified.

Yesterday afternoon $10,000 was taken from the Southern Express company's office up town and carried to the depot. This was sent north. It is supposed the robbers were on the lookout, but made a mistake, thinking the money was to go south.

Another story of the affair says there were four masked men, and that about $10,000 was taken from the safe. It says that Messenger A. M. Nesbitt fired two shots at the leader and was in the act of firing a third when he received a bullet in his right breast and fell to the floor. It says that Express Agent Bunn, of Memphis, Tenn., reports that Nesbitt was killed and that the robbers secured everything of value in the safe.

About fifteen months ago a similar robbery occurred on this same line near Texarkana. Two of the outlaws, Steve and Rube Burrows, the celebrated train-robbers, were captured and confined in the Arkansas penitentiary. Pending their trial Rube escaped and Steve died while in prison. It is thought that the men who robbed the train this morning were a part of the same gang.

TO DIE BY ELECTRICITY.

Murderer Chapleau Likely to be Executed Before Kemmler.

PLATTSBURG, N. Y., June 11.—Judge Fish has fixed the time for the execution by electricity of Joseph Chapleau for the week beginning July 21. When Chapleau was convicted last January the execution was fixed for the third week in March, but a motion before the Court of Appeals for a new trial acted as a stay The motion was denied and the prisoner was brought here from Clinton prison for re-sentence. Chapleau killed Irwin Tabor, a neighbor, with a stake in January. He is said to be a cousin to Primer Chapleau, of the Canadian government, and a college graduate. He was formerly a soldier in the regular army and was stationed here. In all probability he will have the unenviable notoriety of being the first man to be legally killed by electricity.

KIDNAPED TWO GIRLS.

Horse Traders Carry Off a Kansas Man's Pretty Daughters.

LEAVENWORTH, Kan., June 11.—Two horse traders whose names are unknown abducted the pretty daughters of a miner named A. J. Baker yesterday. The girls, the elder 20 years of age and the younger 16, were taken away in a covered wagon. Sheriff Flora and deputies are in pursuit of the party. The men had been hanging about the neighborhood for two or three days. They were last seen driving through the government lane on the road to Atchinson. A warrant was placed in the hands of the Sheriff to-day with the instruction to get the men dead or alive. The name of one of them is Bob Ford and their capture is believed to be certain.

Go Down South Main

To Clark street, and you are at first entrance to "Riverview" from Main. A few weeks later you can enter this charming addition through CARRINGTON STREET (a new street we are about to open just south of Mr. Parker's house) which will perhaps be the easiest entrance to "Riverview." Fourteen rods farther down Main street you will soon find Valley street all marked, and this, too, will be an easy and delightful drive to Riverview. You all know the next entrance is through Sharon and Dickson streets. This will make FOUR good streets from Main to Riverview Park. In these drives you will have the charm of hill and dale, of groves and of glens. It is a conceded fact that no portion of this city is so delightfully situated. Lots in the addition no longer seek buyers, but buyers seek the lots.

AFTER THE ANARCHISTS.

VIGOROUS CRUSADE AGAINST THEM IN GERMANY.

The Government Perfecting Plans for a Wholesale Prosecution—General Foreign News.

BERLIN, June 11.—The government is perfecting plans for a wholesale prosecution of Anarchists under the existing anti-Socialist law. The scheme contemplates the beginning of immediate action against this class of offenders in order to take advantage of the prevailing law, which will presently expire, and as many as can be tried before its expiration will be proceeded against. In pursuance of this policy the police are displaying phenomenal activity in making arrests. Among those taken into custody yesterday and to-day are a number of men who were industrious in the circulation, last April, of scocialist pamphlets designed to foment May Day disturbances. These pamphlets, it was ascertained, were printed in London, New York and Chicago, and shipped to Germany in enormous quantities.

MONUMENT IN HIS MEMORY

Heroic Equestrian Figure of Frederick III—Sir James Miller's Derby Winnings.

LONDON, June 11.—Edmund Yates of London cables to the Tribune: The monument which the German Emperor intends to erect in memory of his father is to be in renaissance style, which Frederick III. so much admired. It will take the form of a heroic equestrian figure, and the site selected is the extreme point of the Island of the Museum, where two bridges are to be shortly built, one connecting the island with Mount Bijou garden and the other with the artillery barracks. No position could be more commanding, and the construction of the pedestal will be begun almost immediately.

Sir James Miller won £14,000 on the Derby; so, including his share of the stake, he has nearly £9,000 to spare after allowing for the price of Sanfoin.

Emperor William is about to send the Sultan a magnificent sword of honor, which has been made in Berlin. The blade is of the finest steel, heavily inlaid with gold; and the handle is a lion's head, with gold ornamentation, the eyes being made of rubies. The hilt bears the monograms of the Emperor and the Sultan. It is in the form of a Saracen sword.

The Czar of Russia is building a new yacht. She is intended to be a vessel of great speed, and all the latest improvements will be introduced, including electric light. The saloons and cabins will be marvels of comfort and luxury, and there is to be dining accommodation for 200 persons. The yacht will be used by the Emperor for crusing the gulf of Finland and the Baltic and for his annual visit to Denmark, as his majesty has conceived a horror of railways since the accident in which the imperial family so narrowly escaped destruction.

WORKING FOR RECONCILIATION.

Emperor Francis Joseph's Significant Utterances to Czech Leaders.

VIENNA, June 11.—The Emperor Francis Joseph, while conversing with the leaders of the old Czech and German parties to-day, declared that arrangements to reconcile differences were the subject of conference and that a satisfactory result would certainly be effected. This significant departure of the Emperor from his customary reserve on all matters pertaining to state policy is expected to exercise a decisive influence in the settlement of the questions at issue.

WILL MAKE A FIGHT.

Small Stockholders Object to the Sale of the Chicago Stock Yards.

CHICAGO, June 11 —That there will be a fight on the part of the smaller stockholders in the Stock Yards company against being frozen out at a loss by the big stockholders is now beyond denial. Just how many shares will be pitted against the proposed sale is as yet unknown. At an informal discussion last night a fight was decided upon, and it is highly probable that before the week ends, possibly Thursday, legal proceedings will be commenced against Nathaniel Thayer, John B. Sherman, the City of London Contract company and others interested, enjoining them from putting a mortgage on the stock-yards property for the purposes intended—namely, enabling the foreign company to pay for the stock. Legal talent consulted yesterday said that the case was identical with the Gas trust matter. That the law would protect the smaller stockholders, who had purchased stock at an advanced price and were to all appearances at the mercy of larger holders, who had purchased stock at a point below par.

RUINED BY RAIN.

Too Much Water in the South for the Good of Crops.

WESSON, Miss., June 11.—The heavy rains through this section of Mississippi for the past ten days are ruinous to many farmers. The grass in some fields is higher than the cotton. Hands can't be procured to clean the cotton out and the farmers are blue.

MEMPHIS, Tenn., June 11.—A special from Troy, Tenn., says the recent rains have greatly damaged the wheat harvest there. The farmers are despondent and fear that last year's experience is to be again their luck, which will cause great loss. The prospects now are that the crop will fall short 40 per cent from expectations. Reports from Newburn say the wheat crop is in a most precarious condition just now in consequence of the hard rain and wind yesterday and having so much rust on it.

LA BOURGOGNE SAFE.

The French Liner's Accident of a Trivial Nature.

NEW YORK, June 11.—Information received here to-day makes it plain that the French line steamer La Bourgogne, about which some anxiety has been evinced, is not in any danger and will be able to make her passage across to Havre.

DAKOTA TRAIN ROBBER CAUGHT

One of the Men Who Held Up a Mail Train Nabbed.

DICKINSON, N. D., June 11.—Intense excitement prevailed here when the news spread that Sheriff Hayes of this county had captured one of the participants in the robbery of the Northern Pacific train at New Salem last Sunday. The sheriff and two other men arrived with the prisoner to-day and lodged him in jail. In crossing Grand river about eighty miles south of here the robber's horse was injured, compelling him to stop in his flight, and when the officers first discovered him this morning he made a desperate effort to escape, but after a race of several miles, and seeing that escape was impossible, he surrendered. He supposed his time had come to die and gave some valuable information showing that the robbery of the train had been deliberately planned. He gave his name as Charles E. Bailey. There were five men in the band, two of whom came from the West on the train which they assisted in robbing. The other three were in readiness at the scene of the robbery with horses and after the job was completed the three latter started south and separated when a few miles out, one going toward the Missouri river, one west, and the prisoner was making for the Black Hills.

NEW YORK. June 10.—In the stock market this morning the general list was dull and featureless, as usual during the past few days, but there was marked activity and strength in a few stocks. The opening was made at figures which were final prices, but the upward movement was inaugurated immediately. The active stocks of the regular list advanced only fractionally. The best prices were not fully maintained and the market showed less animation late in the hour, but at 11 o'clock it was fairly active and firm, generally at fractional advances over the opening figures. Extreme dullness settled down after 11 o'clock, and while the movements in prices almost disappeared there was slight concession from the best figures all round. Later there was more animation and a small fractional rally occurred, but at noon the market was dull and rather heavy generally at insignificant changes from the opening prices.

CUTTING OFF ORATORY.

FIVE MINUTE SPEECHES ON THE SENATE SILVER BILL.

That Will Be the Order After Next Friday—General News at the National Capital.

WASHINGTON, June 11.—The Senate has agreed that after 4 o'clock Friday debate on the silver bill should be continued under the five minute rule. No time has been fixed for a vote. The House silver bill was referred to the committee on finance.

The following bills were passed: House bill for the relief of Humboldt Brothers (directing the redemption of $5,000 10-40 bonds stolen from them in 1873; Senate bill granting to the Chicago, Kansas & Nebraska railway company power to sell and convey to the Chicago, Rock Island & Pacific Railroad Company all the railway property, rights and franchises of the Chicago, Kansas & Nebraska Railway Company in the Territory of Oklahoma and the Indian Territory.

In the course of the debate on the silver bill Mr. Teller became very much excited on the subject of free coinage, which he said was imperatively demanded by the people. He declared that if the promises which were contained in the Republican platform in the last campaign relative to the silver policy of the Republican party urging, as it did, a free coinage of silver, had been placed in there merely as clap-trap for the purpose of securing the votes of the people with the intention that the party should go back on it after securing victory, he would never have given his support to that platform in the earnest manner he did.

Mr. Morrill presented the conference report of the two houses upon the bill providing for the erection of a suitable postoffice building in the city of Washington, and requested that the Senate agree to the conference report, which, after some little discussion, was done, so that at last the people of Washington are in a fair way to secure a postoffice building, which has so long been fought for by the committees of both Houses on the District of Columbia.

After the conference report had been agreed to, on motion of Senator Edmunds the Senate had a brief executive session, and adjourned.

The House.

WASHINGTON, June 11,—The appropriation bill for the expenses of the postoffice department for the coming fiscal year was passed by the House.

An act to amend an act for the relief of settlers on railroad lands was then taken up and passed; also an act for the relief of settlers on public lands, to protect them in actions brought by land grant companies, etc.; also a bill granting the right of way through Fort Clarke reservation, Texas, to the Fort Clarke and Rio Grande railroad company. Petitions were received and referred to the irrigation committee, asking for appropriations for irrigation purposes. An act to reorganize the customs collection district at Puget sound and appropriating amounts for the salaries of collectors was then passed, and the House adjourned.

OUTLOOK FOR WHEAT.

The Acreage in Nearly All the States Reduced.

WASHINGTON, June 11.—The statistical returns of June to the Department of Agriculture include preliminary estimates of the area of wheat, both spring and winter, and its condition. While several States increased the area of winter wheat last autumn, the heavy reduction by plowing and planting other crops to replace the winter-killed wheat in Illinois, Indiana and, to a limited extent, in two or three other States, has reduced the acreage in every wheat-growing State of any prominence except Kansas and Oregon. An increase in acreage of spring wheat is reported except in Wisconsin and Dakota. The condition of growing winter wheat has declined from 80 to 78.1 since the first day of May. Slight improvement is noticed in New York and Pennsylvania and in Ohio and California. The condition of the wheat crop in Indiana, Illinois and Texas remains at the same low figure as last month. Decline is apparent in Michigan, Missouri and Kansas, and in nearly all of the Southern States. The plants are generally thin on the ground and lacking in development. The patches of bare spots are more conspicuous as the season progresses.

The average of entire spring wheat breadth is 91.2.

The reported area of oats is 98.3; condition, 98.8. Area of barley, 98.1; condition, 92.3. Area of clover, 100.7; condition, 95.1.

There has been an increase of acerage in cotton in nearly every State. Average condition, 88.8.

The New Sergeant-at-Arms.

WASHINGTON, June 11.—The Republican Senators held a caucus last night for the purpose of electing a successor to fill the position of sergeant-at-arms recently made vacant by the resignation of Col. William P. Canaday. There was a full attendance and the caucus, though short, was very decisive and business-like throughout. The candidates for the position were Messrs. Reade, of Maine; Byington, of Connecticut; Dunn, of Delaware; Bailey, of Pennsylvania; Swords, of Iowa, Valentine, of Nebraska; Reed, of Minnesota, and Gen. Lester S. Wilson, of Bozeman, Mont.

When a ballot was taken Mr. Valentine received 31 votes. The friends of Mr. Reade, the present deputy sergeant-at-arms, were quite surprised when they saw how things were going, as Mr. Reade had been regarded as the winning candidate. Valentine, however, gained strength with each succeeding ballot and was elected. The successful candidate has served several terms in Congress and is thoroughly conversant with the duties of the office.

Increase in Cotton Acreage.

WASHINGTON, June 11.—The Department of Agriculture's cotton crop report for June shows a large increase in the acreage planted in nearly every cotton-producing State.

A Heavy Failure.

PROVIDENCE, R. I., June 11.—The Oriental Mills Company made an assignment to-day to Samuel Ames, attorney-at-law. The firm became embarrassed a month ago. There are unsecured debts of $335,000 and quick assets valued at $134,000.

Dyspepsia

Makes many lives miserable, and often leads to self destruction. Distress after eating, sick headache, heartburn, sour stomach, mental depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla that I am happy to recommend it." G. A. PAGE, Watertown, Mass.

Scaly Skin Diseases
Psoriasis 5 years covering face, head and entire body with white scabs. Skin red, itchy, and bleeding. Hair all gone. Spent hundreds of dollars. Pronounced incurable. Cured by the Cuticura Remedies.

Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scabs fell off constantly from my head; shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the Cuticura Remedies, and after using two bottles Cuticura Resolvent, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA RESOLVENT and one bottle of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICURA REMEDIES cured it without any scars. I cannot express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use.

Back ache, kidney pains, weakness, rheumatism, and muscular pains relieved in one minute by the Cuticura Anti-Pain Plaster. The first and only instantaneous pain killing plaster.

There's a corset that isn't a corset, a waist with straps for the shoulders and rows of buttons to button on skirts and stocking supporters and so forth—the Ball Waist—and that's about the whole of it. No; you can put it in the washtub—no metal in it or on it.

It is worth your seeing, if for nothing but how to sew on buttons to button easy and never come off, and how to make buttonholes wear forever.

Women differ in their ways of thinking and dressing as well as in other ways. This waist is for women whose minds are made up that they won't wear corsets.

There's much to be said on both sides; but did you ever hear of a woman who hadn't made up her mind in *some way*? and is there any possible use in trying to get her to change it? She will and she will; or she won't and she won't.

You can get the Ball Waist and wear it a week or two or three; and, if you don't want it, take it back to the store and get your money.

STATE OF THE JOKE MARKET.

Spring-chicken jokes are tough.

Church-fair oyster jokes R out of season.

Jokes about Philadelphia are slow just now.

Baby McKee jokes go off very slowly now, at 2 cents per 100.

Mule and William goat witticisms are dear at 5 cents per 100.

Sealskin jokes are now put away in camphor for the summer.

Chestnuts are unsalable. We quote 5 cents per car-load as a nominal figure

Humor about the apothecary who mistakes morphine for quinine is a drug on the market.

Servant-girl jokes, like servant-girls, come high, but we must have them. We quote A No. 1 at $5 per dozen.

The latest style of jokes include the Chicago world's fair, the phonograph, and death by electrocution as a means of prolonging life.

"Jokes about irate fathers setting the bulldog on unwelcome callers upon their daughters are occasionally paralleled, but the demand for them is quite small.

Jokes on lecturers and tragedians and the reception they meet with at the hands of discriminative audiences are eggspensive, if fresh laid, say $1.50 to $2 per pair.

Fun about spring poetry is somewhat frayed at the edges. The subject is too serious for proper humorous treatment. Good efforts command from $1 to $1.37½ each, according to quality.

There is no demand for mother-in-law jokes and their manufacture has ceased at the regular joke factories. Amateurs just starting in business produce a few, but there is no market for them.

The new extradition treaty with England has spoiled the market for cashier-gone-to-Canda fun. We understand that large dealers were caught with quite a supply on hand, and which were thus rendered valueless.

Jokes about millinery bills are always seasonable, though there is generally a boom from just before Easter until the summer is fairly here. Like the fair consumers of the millinery, this brand of humor is very dear.

The strawberry-box joke is coming on the market in small lots. First-rate strawberry jokes, like the bottoms of the strawberry-boxes, come high. We quote gilt-edged, $1.50 to $2; fair to prime, 50 cents to $1.25.

Ice-cream jokes are more expensive than they were last year—75 cents each for fair; shelf-worn ice-cream jokes and those saved over from last season are unsalable. Ice-cream jokes with tyrotoxicon attachments command a slight advance on quoted figures.

Soda-water jokes of the drug-store-wink brand are reappearing in the market. There are no fresh ones, however, the specimens being those left over from last season. Strictly fresh soda-water quips would meet with a ready sale, but the supply of this grade is short.

Plumber and coal-dealer humor is out of the market, and ice-man fun has taken its place. The high price of ice threatens to run values of this class of humor up to an exhorbitant point. There is not much on the market as yet, holders seemingly waiting for higher prices.

MORSELS OF GASTRONOMY.

American ginger in Chinese jars is a new gastronomic humbug.

Lamb has fallen a little in price, but not enough to injure Mary's pet.

There are some hotel soups so thin a blind man can see through them.

Fashionable families' prejudice against hash is only shown away from home.

It is denied that Boston yachtsmen use their city's brown bread for ballast.

Clams are once more seasonable, and their indigestive qualties just as good as ever

There is one peach crop that never is a failure, and that is the preserved kind.

A man who puts sugar on lettuce will eat ice cream and drink coffee simultaneously.

The trouble with hotel waffles is that they appear to put too much flannel in them.

There ought to be some way to compel the boiling of cabbage and turnips outdoors.

Those who delight in the good things of life are charmed just now to go to market.

The edict referring to the Chinese now applies to the sausages—they, too, "must go."

Disraeli used to say the test of gentility was to see women eat oranges and grapes.

Shad roe and lime juice is the approved breakfast of the effeminate club man.

It is believed that the last gun has fired for vea , and it is "meat and right" to let it alone.

When scrapple disappears from the Philadelphia breakfast table, spring has actually come.

In many people the eating of onions means a period of intended isolation from society.

All the old literature about the efficacy of lettuce for insomnia has been started on its travels again.

A man found a $10 gold piece in custard pie he was eating; no doubt a reward for his courage.

A dull knife will make even a fillet seem tough, but a sharp one makes a pounded steak seem a tenderloin.

People who have been across the ocean will seldom touch "stewed prunes with rice" after they have safely landed.

There are people seen eating lamb chops who look disconsolate because they cannot eat the bone as well as the meat.

The fondness of the tribe of parvenus and upstarts of the fashionable world for "fresh mushrooms" can be appreciated.

Now is the season of the year when medical men tell us we are better and healthier not to partake of too solid a breakfast.

Nobody ever hears of codfish balls in these days when old-fashioned food is voted very vulgar,' even by descendants from the farm.

Three-quarters of the published recipes for this, that, and the other are of as much practical use as a top without a cord or a set of harness without a horse.

SAVED BY SEA LIONS.

"I don't like to see that," said an old sailor, as he stood watching some young people fring at the sea lions off the Golden Gate rocks. "They saved my life once, and ever since I've sort of felt like standin' up for them like.

"It isn't much of a yarn, but some years ago when sea lions were a heap sight more plenty than they are today, me and Jack Pausy, an old mate of mine went into partnership for a sea lion shootin' trip off the Sea-lion rocks. We wanted the hides and the ile, and knew just about what a rough life it was a huntin' 'em, but I was born on the water, and Jack within hearin' of it, so we naturally took to sea-goin' an' rough life. What started us on this trip was that a mate that had been by the Brill-Head rocks let on they were covered with sea-lions; so Jack and me bought a boat, fitted her up with bilers and sich, and set out, and after beating agin the wind and fog for three days we made the rocks. Five hours afore we made 'em we heard the barking, somewhat like a dog, only different, and when hundreds of 'em went off together it made a roaring sound that could be heard for miles.

"The rocks was about as lonesome a place as you would find, and were the tops of mountains a sticking out of the water, covered with seaweed and kelp that made a bed for thousands of sea lions. Some of the rocks were two or three hundred feet in height, and so steep that nothing but birds ever got up to them; but the rest were about at high water mark, and one or two about ten foot above. In sailin' around after we reached 'em we see this, and made up our minds to get ashore here and haul the boat up in a cove to le'ward. It wasn't no easy job, and the birds an' sea lions seemed down on us from the first. The birds dashed at us; swoopin' down, so you'd a'thought they would strike, then rising with a kind o' shriek, so mournful like that Jack says: 'If I had any reason in signs or the like I'd think they meant for us to up and run.' But we stuck at it, and as luck had it the wind went down that night, and we got the boat well in and made everything snug. I reckon there was about an acre of room on the rock at flood-tide—room an' to spare, we thought. Well, that night we turned to and killed over fifty sea lions; a-creepin' up to them on the rock and killin' with a club, as they uster sea-elephants around here twenty or thirty years ago. The next day we spent at skinnin' and tryin' out, and at sundown Jack says: 'It looks heavy, mate,' and so it did; big bunches of lead-like clouds was a-bowlin' in so fast that they actually fell over each other and got all mixed up, and then something kind of queer—the sea lions let up, and you couldn't hear a sound save the slash of the waves. It looked bad and heavy, and if the old rock had o' had any sail to'l, I'd had 'em in, short commons, an' topmasts housed for that matter. Well, night comes on black as your hat, and we stowed ourselves away in the boat, feelin' lonesome like enough. I reckon it was nigh on to eight bells when I wakes up and finds Jack a-hangin' on to me and wet through. 'What's up,' I sings out, for it was blowin' that hard you couldn't hear any thing. I never got an answer, for that minute the sea struck us, and away we went. The next thing I knew I was dropped on a big sea lion, with my leg clean over his back and my head down among the kelp. I see the sea was making a clean breach over the rock, and if the tide was risin' any more my chances were poor; but I ain't one to slip cable afore time, so I laid on the big kelp rope. I clung to it all I knew. The next sea was three foot over the rock. I twisted myself around so that I fell on another sea lion. I see the rock must be covered with 'em, and for the next two hours I just laid in between two big ones, and let the waves go over me, and I that cold that I never could have clung to the kelp; if it hadn't been for the lions I'd have gone sure. They didn't seem to notice me, just layin' low like, once in awhile letting out a bark where a big sea would come, and that's all. Toward mornin' I began to get kind o' weak, but then it began to rain, and that kept the sea down some, and after awhile it lighted up a little, and I see the curiusest sight I ever see. It was a-blowin' big guns an' a' awful sea running but what broke it off from our rock was sea lions. If there was one there was a million (sailor countin'), piled up in regular heaps—four an' five deep. To the very top of the rock where they formed a regular breastwork so I see the waves broke up like on 'em, and I only got the wash, and was lying in a regular living fort of sea lions. I wasn't long in seeing Jack, and he clambered over the critters an' jined me, an' says like as if he had jest come o' board: 'What cheer?' 'None at all,' says I, 'but I know one thing,' says I, 'if we ever get out of this it will be owin' to these 'ere sea lions.' 'I've been a-clingin' to one all night said Jack, 'an' they were piled up around me four and five deep, and sometimes on me; but they saved us and no mistake.' At the next tide we took the seas again, and managed to keep on by hiding on behind the lions; and them critters never offered to touch us, and just braced up, takin' the seas as they come. That night the sea went down a bit, an' some o' the sea lions left, and the next day it cleared, the boat and everything was gone, and for another day we lived on crabs and a bird jack caught, an' then a boat of eggers from the Forratones came along and took us off, half starved, an' glad enough to get off so easy, so yer see Jack an' me owes what there is left of us to sea lions, and so I don't like to see 'em hurt."

Wherever Malaria Exists.

The bilious are its certain Prey. In intermittent and remittent fever, dumb ague and ague cake, the liver is always seriously affected, and the blood contaminated with bile. One of the chief reasons why Hostetter's Stomach Bitters is such a sure defense against disease, is, that it does away with liability to the disease, by reforming irregularity of the biliary organ in advance of the arrival of the season when the disease is prevalent. There is no finer fortifying preparative for those about visiting or emigrating to a locality where the miasma-taint exists. There is no certain immunity from disease in an endemic or epidemic form, to be secured by the use of the average tonics and anti-spasmodics. But where quinine fails the Bitters succeeds both in preventing and curing. Moreover, it removes every vestige of dyspepsia, and overcomes constipation, rheumatism, inactivity of the kidneys and bladder, and tranquilizes and strengthens the nervous system.

Ministers, Lawyers, Teachers and others whose occupation gives but little exercise, should use Carter's Little Liver Pills for torpid liver and biliousness. One is a dose. Try them.

DRESS OF A CHINESE BRIDE.

The Elaborate Costume of an Oriental Maiden.

A writer in the North China Herald describes the dress worn by a Chinese lady at her wedding, of which he was a witness, as follows: "At length we were admitted to inspect the bride, whose four hours' toilet was just completed, and a marvelous spectacle truly was the figure, seated motionless in the center of the room. Gorgeously elaborate was her array from head to foot, the former crowned with a helmet-like erection of a material resembling turquoise enamel wrought into the finest filagree work, from which projected glittering artificial beetles and butterflies and other quaint rich ornaments, the whole surrounded by three large round tufts of crimson silk, arranged tiarawise. From the brim of this headgear fell all around strings of pearl and ruby beads about half a yard in length. Just visible through these at the back were broad loops of jet-black hair, stiff and solid as polished ebony and decorated with artificial pink roses. Her principal vestment was a long tunic, whose foundation fabric of crimson satin was scarcely discernible amid its embroidery of old; a corner turned back, lined with emerald satin, revealed an underskirt paneled in brilliant red and blue silk, this also profusely trimmed with gold embroidery. A belt of scarlet satin, studded with tablets of white carnelian, crossed the waist behind. From the front edge of her headdress a red silk veil fell almost to the ground, adding much to her preterhuman aspect."

SHE WAS POISONED!

Not by anything she drank or took, but **by bad blood.** Is it any wonder she feels "blue?" In most cases blues are only another name for bad blood. A man or woman feels unhappy. Life seems dark. The heart is heavy. Bad blood is carrying its poison all over the body, and we call it "blues."
Read these experiences:
Mrs. C. C. Hutchinson, of Pittston, Pa., says: "I consider Dr. Acker's English Blood Elixir the best medicine in the world, not only for blood troubles, but also for dyspepsia, with which I have been afflicted."
"Both my wife and myself firmly believe that Dr. Acker's English Blood Elixir is the best of all blood medicines, and will remove *all* impurities of the blood."

SUBJECT TO INFLUENCE.

We all are creatures subject to influence by our fellows.

If one neighbor whose judgment you trust, engage in an enterprise, you pay heed to his efforts in proportion as you respect his judgment.

We believe his statements in proportion as he has established a reputation for trustworthiness.

If two neighbors of good judgment engage in an enterprise, you pay—or should pay—double attention to their statements.

If three or four reputable, sound, solid successful, enterprising merchants in your city, or if as many of the leaders in the towns around, *unite with a common approval of judgment, after mature investigation, in the very same enterprise,* you should be satisfied that the enterprise they accept and offer to you, is well worthy at least your investigation.

This is precisely the situation with regard to the new system, undertaken by respectable and solid merchants in your vicinity, of reaching the humblest home with the greatest reference library which the English literature affords.

By methods and machinery but recently invented, a nine-dollar book is reproduced, practically as good and more durably, at a cost astonishingly low.

By the invention of new ideas in trade, which do simple justice to the cash buyer, this grand prize is offered you in a remarkable way.

The reputation, the intelligence, the pledge, of merchant neighbors, stand back of their offer to you.

No one claims to be "giving you something for nothing," nor to be selling anything "below cost."

But we do claim that we offer you the grandest prize in your business experience.

Respectfully,
BURNS & BOLAND,
A. O. MUNGER.

A FESTIVAL OF SONG.

Choir Festival at Trinity Church Last Evening—Banquet at Columbia Hall.

Last evening the choir festival of Trinity church, assisted by the vested choir of St. Paul's Episcopal church of Beloit, was held at Trinity church. The Beloit choir were accompanied by the rector of the church, Rev. Dr. Fayette Royce, and director of the choir, Prof. Roberts.

The services were very impressive and began at half past seven o'clock. A very able sermon was preached by the Rev. Fayette Durlin, rector of Grace church, Madison, which was listened to with much interest attention.

The vested choir of St. Paul's church then sang the anthem, "Oh! Clap Your Hands All Ye People," in a very creditable manner. The singing showed plenty of care and study.

The prizes awarded to the boys were as follows:—

First prize, for improvement in singing and behavior, was awarded to Eddie Davis, and the second prize, for attendance and behavior, was awarded to Willie Denniston. The services were very interesting; after which the choir and clergy repaired to Columbia Hall, where a banquet was served in the usual style of the ladies of the Trinity church. After supper short speeches were made, Mr. J. C. Metcalf acting as toast-master. Rev. James Slidell delivered an address of welcome, which was responded to by Dr. Royce, rector of St. Paul's church, Beloit. Prof. Robert and Mr. Jack made speeches for the visiting choir, and Mr. John V. Norcross responded for Trinity church choir.

The closing remarks were by Rev. H. Baldwin Dean, after which the assembly broke up, giving three cheers for the choir from Beloit.

The Spring Medicine

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

THE BAND CONCERT.

A Large Crowd of People Listen to the Music of the Band Last Night.

The band concert in the court house park last night drew fourth a large crowd. The band had a platfrom to sit on, which much improved the music. as it raised the players above the heads of the audience. They played a variety of music and all was well rendered. One piece that seemed to catch the audience, had the crowing of a rooster as one of the novelties, after which the whole flock of chickens flapped their wings. The band is certainly improving and the concerts are very enjoyable.

AMONG FAST STEPPERS

The June Meeting of the Janesville Driving Park Association a Success.

THE WINNERS OF TWO RACES YESTERDAY AFTERNOON.

A Good Attendance at the Park This Afternoon—The Fine Trotters on Exhibition To-day.

In the 2:26 class trotting there were but four starters. March, J. K. Bullock, Aurora, Ill.; Fanny Belmont, George Leihy, Chicago; Major Lynn, McHenry & Tynn, Independence, Iowa, and Isaac G. A. O. Hikock, San Francisco. Elsie Sprague and Abdallah withdrawn, both being affected with distemper.

The track is in fine condition, but rather dusty.

The cold, damp air does not tend to improve the speed of the horses, but still good time was made in all the races.

The attendance was much larger than yesterday—the grand stand being comfortably filled. Many people also came up in carriages.

Mr. McKinney acted as starter, Messrs. O. F. Nowlan, Clark Palmer and J. C Chandler as time keepers. Messrs. H. D. McKinney, J. G. Devens and J. E. Gleeson judges.

At two o'clock the horses were called for the 2:26 trotting race and after some scoring got away. March had the pole, Major Lynn second, Fanny Belmont third, and Isaac G. fourth place.

Major Lynn immediately took the lead and held it until the home stretch when March began to close up on him but broke a short distance from the wire and finished off his feet. Major Lynn won the heat, March second, Fanny Belmont third and Isaac G, fourth. Time, 2:27. Major Lynn had a walk away until the stretch was reached with the others scattered along in regular distances apart.

The horses were then called for the 2:24 pacing race and drew positions as follows: Maggie Almont had the pole, Duco second and William E, third place, Gypsy Goldust being drawn. Maggie Almont is owned by A. W. Denison, El Dorado, Kas.; Duco by J. F. Kenney, Paris, Ky., and William E by A. W. Kenney, Chicago, Ill. All are fine looking animals—all being bay in color.

The horses got away well together, and kept in a bunch until the quarter pole, when Wm. E broke and fell back, and Maggie Almont took the lead with Duco a close second which positions they held until the stretch was reached, when Duco closed up on the leader but failed to get ahead, Maggie Almont leading by a half length, Duco second, and Wm. E third. Time—2:21¾. This was a very good race, all the horses being well together. Maggie Almont was the favorite in the pools, selling slightly in advance of the field.

The horses in the 2:24 class were soon on the track again and got away well together. Major Lynn took the lead with the others strung out behind. They remained this way until the stretch when March and Major Lynn were close together, but March broke a short distance from the wire, Major Lynn came in first, March second, Isaac G. third and Fanny Belmont fourth.

SUMMARY—2:28 CLASS TROTTING.

Major Lynn	1	1
March	2	2
Isaac G	4	3

SUMMARY—2:24 CLASS PACING.

Maggie Almont	1
Duco	2
William E	3

Time—2:21¾.

At four o'clock the horses are still fighting for the purse.

LATER.

In the 2:24 class pacing "Maggie Almont" won in three straight heats; and in the 2:26 class trotting, "Major Lynn" won in straight heats.

YESTERDAY AFTERNOON.

Yesterday afternoon the 2.22 class and 2:50 class races had not been decided when the Gazette went to press.

The 2:22 race was an exceptionally fine exhibition the winner leading but a neck in each heat. Diamond, a bay gelding owned by D. Barker, of Greenwood, Missouri, was, however, too much for the other two.

SUMMARY.

Diamond	1	1	1
Eva	2	2	3
Linda Sprague	3	3	2

Time—2:25½; 2:25¾; 2:23¾.

The 2:50 race was also closely contested, but Judge Rider, a bay horse owned by McHenry & Williams, Independence, Iowa, was too fast for the field, and won handily with the exception of the first heat, when Call Back bobbed up serenely and came in ahead. This created quite a stir at the pool boxes, but Call Back could not win again, coming fourth the three next heats.

SUMMARY.

Call Back	1	4	4	4
Judge Rider	2	1	1	1
Brilliantine	3	3	2	2
Kate B	4	2	3	3
Abbie Bell			Dis.	

Time—2:28¼; 2:29½; 2:28¼; 2:28¼.

To-day's entries in the 2:26 trotting and 2:24 pacing races were exceptionally good. The 2:26 class has seven entries as follows: J. M. Grant, Oswego, Kas., has entered bay mare, Elsie Sprague; J. K. Bullock, Aurora, Ill., grey stallion, March; Geo. W. Leihy, Chicago, a chestnut, Fanny Belmont; McHenry & Williams, Independence, Iowa, chestnut gelding, Major Lynn; Geo. R. Boyce, Evansville, Wis., bay gelding, Brittle Silver; N. H. Biddlecome, of this city, Isaac G. and A. O. Hikok, San Francisco, bay gelding, Cubic.

Pool selling at the Hermitage was lively last night. March started out as a warm favorite and sold $10 for choice. Later on Major Lynn blossommed out as a favorite and sold for $10 also.

In the 2:24 class pacing there were five horses entered: J. M. Grant, Oswego, Kansas, Grant's Abdallah; A. W. Denison, ElDorado, Kansas, bay mare, Maggie Almont; A. W. Kenney, Chicago, William E.; J. F. Kenney, Paris, Ky., Duco, and F. D. Rees, Bloomington, Ill., bay mare Gypsy Gold Dust.

Pools on this race did not go very fast but about town Maggie Almont was the general favorite.

THE DEAF AND DUMB.

Graduating Exercises at the State School at Delevan on Tuesday.

The closing exercises of the Wisconsin School for the Deaf at Delevan took place Tuesday. The music for the occasion was furnished by the orchestra from the School for the Blind, under the leadership of Mrs. J. H. Jones. The beautiful music by the blind orchestra and the exceedingly interesting essays and orations by the deaf, delivered both in sign language and orally, made a profound impression on the large assembly present. THE MODERN WOODMEN.

They Give a Basket Social at Liberty Hall Last Night.

Last evening Florence Camp No. 366 Modern Woodmen of America, gave a basket social at Liberty hall in the Smith block which proved to be a very enjoyable affair.

The entertainment opened by a solo—"Little Tiny Buttercups," by Miss Phemie Grant, which received an encore in response to which she sang "Little Kate O'Brien" in an equally pleasing manner. Miss Glenn McGuire played the accompaniment.

Mrs. F. W. Christman came next with a selected reading. It was finely executed and received an encore. Mrs. Christman never fails to please an audience.

"Old Athens," a vocal solo by Miss Nellie Kent. was next on the programme. Miss Kent received an encore and responded with "Tit for Tat." She was accompanied with cornet obligetto by Mr. S. Kent and organ by Miss Ella Vinton.

Miss Clara Boyce gave an excellent recitation entitled, "No Kickers There."

Miss Lou Fenton also fevored the audience with a selected recitation.

Miss Jennie Hollins recited "A Quie Camp" in a very credible manner, which completed the literary part of the programme.

The baskets filled with lunch were then brought out and sold at auction which caused much merriment. After lunch the company danced until a late hour.

EMINENT TESTIMONY.

What a Minister Says About Dr. Wise and His Treatments.

The following is clipped from the Berlin, Wis., Courant of May 24th, 1890

What Rev. W. D. Cornell, of Berlin, Wis., says:

To Whom it May be of Interest—I take pleasure in saying that I have been acquainted with Dr. W. H. Wise for the past ten years, and have many reasons to be thankful for the opportunities myself family and friends have had to secure the services of his extraordinary skill in the practice of medicine. I have ever found him thoroughly reliable in all of his dealings; careful, conscienscious and honest in the practice of his profession. His eminent success in the field of medicine, justly entitles him to an honored place in the hearts of his race. Any who may have occasion to call on him while he remains in the city, may feel certain that they will meet a gentleman and a scholar; a physician of wide experience and unusual success in the treatment of the diseases to which he is giving his entire attention

Very cordially yours,
W. D. Cornell.

Last Monday morning at ten o'clock, at her residence in Johnstown. Mrs. R. Stone, aged 66 years, bid adieu to all earthly scenes and friends, and entered into life eternal. The last few days of her life she was a great sufferer, but bore it all without a murmer or complaint, only wishing to be submissive to the Lord's will. Thirty-four years ago she, with her husband and family came from Painsville, Ohio, and settled in this place. Some years since she buried her companion and four of her children, and last Friday she was laid to rest by the side of her loved ones, to await the morn of the resurrection. At the early age of 13 she gave her heart to God and entered upon the work of a christian life, uniting with the M. E. church for the last 25 years; she has been a member of the Free Baptist church of this place, and truly it can be said of her that a good woman has gone. Her life on earth is finished, but her works will follow her. She leaves to mourn, one daughter, Mrs. Bennie Warren, of Spencer, Iowa, and five sons, who all reside at or near the old home. The funeral services were held at the church, conducted by the pastor, Rev. W. Brown, who spoke words of consolation to the sorrowing friends.
